

WHITE TEA

White tea is the least processed of all true teas from the *Camellia Sinensis* plant. During processing, the tea buds and leaves are withered and left to dry naturally without any further heating or oxidation that would produce other tea varieties. In general, white teas possess a light, naturally sweet flavor free from bitterness.

DEAR ROSE *organic*

A blend of White Peony, rose buds, peppermint and green tea. A stunning blend of disparate elements that produces a vibrant mix of flavors, yet at the same time sweet, minty, and floral, with no flavor overpowering the other.
